

This vote is a travesty. We already have too few companies controlling our media, and this only makes it worse. How sad and pathetic is it that we have to now look to the press overseas when major issues are discussed? We sure couldn't find out the truth about what our country was doing/is doing during the Iraq war. This travesty of a bill is only going to worsen that situation. Lawmakers who vote for this should be ashamed of themselves!
